
Stat 1st Majors by Year (as of September 2, 2014)

Freshman – 15 (probably closer to 20)

Sophomore – 10 students

Junior – 28 students

Senior – 56 students

Total = 109 (probably above 135)

Double majors = 9 Stat minors = 104

All numbers above are under counts. Paperwork for change of major still going through the dean's office + does not include students who have not paid their fall semester bills.

Numbers we should expect are on the order of 150 majors + 150 double majors/minors

#####

STATISTICS ADVISERS AS OF SEP 2, 2014

AKRITAS, MICHAEL 7

ALTMAN, NAOMI 1

BAO, LE 9

FRICKS, JOHN 3

HANKS, EPHRAIM 11

HARAN, MURALI 14

LINDSAY, BRUCE 5

MORGAN, KARI 13

ROTHS, SCOTT 22

SHUMWAY, DURLAND 7

WIESNER, ANDY 22

ZHANG, YU 12

ZHAO, ZHIBIAO 9

High priority:

(1) Undergraduate chair search: Ph.D. in Statistics/closely related field to run the undergraduate program. (Someone equivalent to James Sellers in Mathematics)

(2) Part-time adviser search: adviser who can hold office hours each week to answer routine questions, especially for double majors and minors because they do not have advisers. Example candidate would be a graduate student in education.

(3) Learning objectives: We need this for each course in our program. Already up for STAT 100, STAT 200, STAT 240.

<http://stat.psu.edu/education/syllabi/course-learning-objectives>

(4) Rethink undergraduate curriculum for Penn State Statistics.

Current committee: Dave, Kari and Murali. If you are interested in participating, please let me know.
